GETTING STARTED:

- For a **2-PLAYER GAME**: Each player has 16 cups. Share the base colors equally so each player has 4 cups of each color (ignoring the top colors). Each player must arrange their cups into 4 stacks of 4 cups in front of them with the Stand Spinner in the middle.
- For a **3-PLAYER GAME**: Each player starts with 10 cups. Share the base colors so each player has at least 2 cups of each color. Each player must arrange their cups into 5 stacks of 2 cups (discard the 2 spare cups).
- For a **4-PLAYER GAME**: Each player starts with 8 cups. Share the base colors equally. Each player must arrange their cups into 4 stacks of 2 cups.

***TIP:** Start with a different color on the top of each stack or even stack the cups with the same color base per stack.

STACKCUPS

HOW TO PLAY

The object of the game is to be the first player to stack all of their cups.

- To start, press the button on the stand spinner. This gives you the start color for each podium. Players race to place their cups onto either podium of the stand spinner (1 cup on top of the next) as fast as they can.
- In order to place a cup on top of another, the base color must match the top color of the cup below.
- Cups can only be taken from the top of player's stacks. When a stack is gone, you can split another stack to make two. You are only allowed the same number of stacks as you started with (see GETTING STARTED).
- Players can call 'challenge' if they believe their opponent has placed a cup incorrectly. Whichever player is correct in the 'challenge' then restarts the game by placing a free cup first.
- If a cup can no longer be placed by any player, press the spinner to show an alternative top color for each stack and continue.
- The first player to stack all of their cups wins!

THE ADVANCED GAME:
