How to Play

1. On the count of 3, both players high five each other with both hands and then use their launchers to shoot squishy frogs through the mouth of The Child to the other side.
2. Keep launching until there are no more frogs on your side.
3. You don't take turns—players shoot at the same time. Reload and shoot as fast as you can!
4. Any squishy frogs that land on your side must be sent back before you win.
5. Players may move their launcher to get the best angle.
6. Players may NOT use their hands to toss squishy frogs through the mouth of The Child.
